The Long Drought in Small Business Lending

Most Americans have moved on from the financial shocks that struck our economy almost a decade ago. Millions of new jobs have been created, wages are rising and companies have repaired their balance sheets. Yet one unfortunate legacy of the 2008-10 meltdown remains: the tens of thousands of small businesses that still struggle to obtain a bank loan at reasonable cost, if at all.

-- William Phelan, President and Co-Founder of PayNet Inc.

Finance That Transforms Life

University students have a reputation for effecting change, and one of the most significant developments ever seen among tertiary students is underway right now. It's happening with the support of the fintech sector.

-- Ricardo Fernandez, Chief Marketing and Sales Officer, Prodigy Finance

States are Key Players in Transforming the Consumer Lending Environment

While the federal government gets most of the attention on the policy front, it might surprise you that in the past 12 months, almost a third of the states have passed more than 20 new laws

that impact online lending.
