These breakout sessions are designed to explore new, forward-looking data sources, develop strategies to improve loan performance, and help lenders gain a competitive edge.

### **ROAD FORWARD FOR BANKS AND FINTECH:**

Fueled by a proliferation of innovation, bank-fintech relationships have transformed the financial services sector. But a rapidly shifting economic environment, coupled with gaps in federal and state standards, is creating uncertainty for the industry and consumers alike. These breakout sessions will provide insights on expected trends and best practices which will set your company up to successfully navigate the evolving landscape.

## **ROAD FORWARD FOR BANKS AND FINTECH SESSION DESCRIPTIONS**

### **FINANCING THE FINTECH**

Technology firms are reshaping the financial sector with a proliferation of new products and services. But this innovation brings challenges in maintaining liquidity and accessing portfolio financing. This expert panel will examine funding trends and their underlying drivers, including standards for securitization, lines of credit, and third party purchasing with a particular focus on the growing role of direct purchasing.

### **WHAT IS THE STATE OF PLAY FOR BANK-FINTECH PARTNERSHIPS?**

Fintech companies have emerged as valuable partners that help traditional financial services institutions reach new goals. But in a constantly evolving landscape, challenges old and new affect the future success of these partnerships. This expert panel will examine the potential barriers to bank-fintech partnerships and share mitigation strategies and outside-the-box solutions that will enable you to keep driving industry change.

### **DATA OWNERSHIPS AND SECURITY**

Cutting-edge innovations in the bank-fintech partnership space have made data abundant and ubiquitous. The benefits are numerous, from greater product development to faster market penetration and customized customer services, but so are the potential risks. This expert panel will examine the expectations and responsibilities each party needs to consider for the handling of the data they generate and show how smart data policies will keep your partnership flourishing.

### **MANAGING YOUR BANK-FINTECH RELATIONSHIP**

Over the past decade, technology has revolutionized how the financial services industry serves its consumers. However, it takes more than tech to keep a bank-fintech partnership moving in the right direction. If not managed correctly, these partnerships can fall short of expectations. This expert panel will share their tips on how to avoid the kind of pitfalls that hold these partnerships back, along with proactive strategies that will boost your odds of success.

### **THE DO'S AND DON'TS OF DEVELOPING CUSTOMER FACING APPLICATIONS**

Although some banks have tried developing customer-facing applications inhouse, they are increasingly focused on finding responsible third parties to provide these applications. Fintech's looking to offer these services must demonstrate an understanding of both the bank's regulatory environment and commercial landscape. Learn the framework for successful application collaboration that has the adaptability to meet customer needs.

## **FUTURE OF BUSINESS LENDING SESSION DESCRIPTIONS**

### **STRATEGIES FOR LENDING TO THE GIG ECONOMY**

By 2027, 50 percent of all workers are expected to be participating in the gig and freelance economy. Because many of these entrepreneurs lack paycheck stubs, tax returns, bank statements, and other income documentation, they struggle to access traditional financial products. Recognizing this gap, many fintech companies are now tapping into this market and providing solutions that work for these workers' unique needs. Hear from a panel of LEND360 experts who will outline effective approaches to providing financial services and products to this rapidly growing sector.

### **COLLATERAL AND RECOVERY TACTICS FOR BUSINESS LENDERS**

When business lenders make a SMB loan, it trusts the borrower will fully meet its commitment. But what if that does not transpire? It has long been known that one of the most effective ways to protect against the consequences of nonpayment is to obtain collateral. For online lenders that at times can be a challenge with so much of the loan process done remotely and potential borrowers spread out over the country. This panel will educate fintech business finance companies on techniques they can use to help secure their transactions and reduce losses.

### **HOW TO BUILD AN INTELLIGENT, EMBEDDED LENDING ECOSYSTEM**

Today's entrepreneurs are looking for a broad range of financial services and products. By leveraging open finance technology, online lenders and banks have the opportunity to streamline the underwriting process for small and mid-sized business (SMB) loans. Adopting modern lending APIs enables lenders to provide a full complement of offerings that meet their customer's needs, including fast, and accessible capital. This session aims to shine a light on how to implement an intelligent, embedded lending finance ecosystem that offers new revenue sources, while increasing customer retention.

### **AUTOMATED DECISIONING FOR SMB LOANS**

Advances in data and analytics are creating new opportunities to improve credit-decisioning models. While portions of the financial services industry have successfully leveraged data to accelerate growth, many in the SMB sector have lagged. Automated decisioning can help make near-instant business loan decisions, leading to more efficient lending. This panel will discuss how automated credit decisioning can streamline loan originations, increase productivity, reduce borrower churn, and drive bottom-line results.

### **WHAT'S WORKING IN SMALL BUSINESS ACQUISITION AND RETENTION**

Acquisition costs for quality small business leads keep increasing. Search and direct mail costs are trending up. It is increasingly challenging to stand out on social media with content and affiliate costs can be significant. In this environment, developing testable, scalable campaigns – while avoiding fraudulent leads – is more important than ever. Hear from a panel of industry experts on developing and executing cost-effective acquisition campaigns and keeping customers for the long haul.
